866.WANT.LJ.4

Dear Transportation Professional,

"All men are created equal." (That's what the Declaration of Independence says). But, in the world of transportation, all trucking companies are not created equal, particularly L.J. Kennedy Trucking Company. **Here's why:**

• **Driver Quality**

The driver is the heart and soul of any trucking company and L.J. Kennedy is no exception. We attract and retain many of the safest, most reliable drivers on America's roads by providing them with wages and benefits that are superior to our competition. Our high standards assure you of an experienced, dedicated and courteous driver force.

• **Size & Scope**

Our fleet of three hundred and eighty-nine tractors and eight hundred and fifty-four trailers allows us to satisfy even the largest customer's peak shipping volumes. We delivered 90,777 loads and traveled a distance equal to sixty-five trips to the moon, and back, in 2007. If you ship on flatbed trailers, to or from points east of the Mississippi, you've come to the right place.

• **Reliability**

A network of seven strategically located terminals stretching from Maine to Kentucky allows us to pick-up, relay and deliver your loads on short notice, without delay.

Auburn, ME • Bristol, CT • Stony Point, NY • Kearny, NJ • Florence, NJ • Aliquippa, PA • Carrollton, KY

• **Satellite-Tracking**

It's 10:00 – do you know where your shipment is? If you use L.J. Kennedy, the answer is yes. Our tractors are equipped with state-of-the-art GPS mobile satellite receivers, allowing us to track your shipments to within 100 feet of their exact location. We can send messages to any driver, at any time, via satellite, if an emergency arises or diversion is required. This feature gives you a degree of comfort few specialized carriers can match.

• **Special Services**

*Need union drivers? We've got them.*

*Stretch trailers required? No problem.*

*Spotted trailers a must? Just ask us.*

*Loads weigh 51,000 lbs.? We can handle them, safely & legally, in most cases.*

• **Careful Handling**

When less than one in 4,429 shipments transported results in a freight claim, you can be confident that your product is being treated with unsurpassed care and skill. If you've been plagued by damaged freight, call us – we can help.

• **Commitment**

Since 1947, we've served the toughest customers in the business, including twelve Fortune 500 companies and more than 1000 smaller, but no less valued, shippers. You can count on us. Our uncompromising commitment to service has allowed us to survive recessions, deregulation, fuel-shortages and skyrocketing insurance premiums. Our durability is proof of our commitment to the needs of our customers. If you ship "time-sensitive" freight on flatbeds, and reliability is not negotiable, put us to the test.

I'm looking forward to hearing from you. Until we speak again, thank you for your time and consideration.

Sincere best wishes,

Mitch Bookbinder, *Manager of New Business Development*

All trucking companies are not created equal, see why L.J. Kennedy Trucking stands above the rest.
